**Black Widow® Launches Black Ice Winter Line with Snowmobile Trailer Kits**

*Winter powersports line includes quality solutions for loading, storage, and maintenance of snowmobiles*

**GERMANTOWN, WI** – Dec. 17, 2020 – Black Widow®, manufacturer of quality utility products for the powersports market, introduces Black Ice, a new line of winter powersports products including snowmobile trailer kits, ramps, ski guides, jacks, stands and dollies. The Black Ice product assortment covers snowmobile riders of all levels, including riders who perform their own sled maintenance. Standard product models are suited for light to moderate usage while pro models, which feature higher weight capacities and design upgrades, are built to withstand more frequent and rigorous use.

An integral part of the new line, Black Ice Snowmobile Trailer Kits are designed to transport one or two snowmobiles and are available in a standard version and an all-in-one pro version. Equipping riders with affordable kits that include all the necessary components to transport their snowmobiles is both convenient and saves time.

**Black Ice Standard and Pro Trailer Kits Overview**

COMPONENT	DIMENSIONS	SINGLE KITS		DOUBLE KITS	
		STANDARD	PRO	STANDARD	PRO
SKI GUIDES	96" x 6.375"	X	X	-	-
	120" x 6.375"	-	-	X	X
CALIBER TRAXMAT	72" x 18"	X	X	X	X
RATCHET STRAPS	72" x 1"	X	X	X	X
RAMP	60" x 54"	-	X	-	X
EXTENSION	36" x 18"	-	X	-	X
SALT SHIELD	95-102" x 25.5"	-	-	-	SNO-TK-DDS only

**Black Ice Standard Trailer Kits**

**Single:** [SNO-TK-SE](#); MSRP: \$ 119.99

**Double:** [SNO-TK-DE](#); MSRP: \$ 214.99

Available in both a single and double set-up, Black Ice Standard Trailer Kits feature protective ski guides and Caliber TraxMats for easy, damage-free snowmobile loading. Mounting hardware and ratchet straps are included.

The low-profile ski guides are grooved for better traction and moisture dissipation. They install flush with recessed mounting holes that allow for expansion and contraction to mitigate warping due to fluctuating seasonal temperatures. The PVC construction is durable and withstands harsh winter conditions without cracking or chipping.

The Caliber TraxMats prevent potential scratches and damage to both the snowmobile and trailer deck during loading. Featuring a grooved design with drainage holes and channels that divert sitting moisture, TraxMats prevent trailer deck rot by allowing air to flow through for quicker dry times.

Four hi-visibility orange ratchet straps are included per kit to firmly secure sleds for transportation. Each strap is rated for a 1,000-pound working load limit and a break strength of 3,000 pounds with vinyl-coated S-hooks to protect against paint scratches.

**Black Ice Pro Trailer Kits**

**Single:** [SNO-TK-SD](#); MSRP: \$ 374.99

**Double:** [SNO-TK-DD](#); MSRP: \$ 469.99

**Double with Salt Shield:** [SNO-TK-DDS](#); MSRP: \$ 689.99

Black Ice Pro Trailer Kits includes all of the standard trailer kit components with the addition of the Black Ice Tri-Fold Snowmobile Ramp and Extension. Made of lightweight aluminum, the ramp supports up to 1,500 pounds and compactly folds down to 17.5" wide for storage, whether during transport or in the shop. Built-in ski guides on the outer panels reduce loading resistance, and the lie-flat extension helps snowmobile tracks grip the ramp during the loading process.

The pro double kit is also available with the Caliber Salt Shield, which extends horizontally to fit most trailer widths. It installs with included hardware and comes with a quick-detach kit for multi-use trailers. In transit, the salt shield's aerodynamic design directs road spray to either side of the trailer for added sled protection.
