## **Black Widow® Introduces New Personal Watercraft Dolly**

**GERMANTOWN, WI** – Jul. 30, 2021 – Black Widow, manufacturer of quality, affordable utility products for the powersports market, introduces the Black Widow® Personal Watercraft Dolly (Part # [PWC-DOLLY-V2](#), MSRP: \$189.99) for moving and storing jet skis, Jon boats and inflatables up to 1,000 pounds. Designed for use in both commercial and personal garage/shop settings, the dolly is adjustable to fit varied PWC models and includes all hardware.

Constructed from galvanized steel for better corrosion-resistance, the dolly includes the mounting plates and brackets along with four 3.75" casters that rotate 360 degrees for smooth movement across different types of floors. Two of the casters lock to prevent movement once positioned.

The Black Widow Personal Watercraft Dolly features dual bunks with three symmetrical width adjustments (center to center: 12.25", 16.25", 20.25') that rotate internally within their brackets to conform to different hull angles. Marine carpet on both bunks protects against scratches to the PWC. Measuring 20.5" high, the dolly remains low enough to create a wide, stable base with its large 50.5" L x 33.875" W footprint.

### **About Black Widow®**

Black Widow, a division of MOTIS Brands™, manufactures a selection of loading, transporting and maintenance solutions for motorcycles, ATVs, UTVs, and PWCs along with snowmobiles through its Black Ice line. With an emphasis on combining product durability and affordability, standard and pro heavy-duty models are available to accommodate hobbyists, enthusiasts and working professionals.
