**Black Widow® Introduces New Extra-Wide Tri-Fold Ramp for ATVs**

*Matte black ramp features thicker tubing and superior welding craftsmanship.*

**GERMANTOWN, WI** – October 6, 2021 – Black Widow®, manufacturer of quality, affordable utility products for the powersports market, introduces the Black Widow® Extra-Wide Tri-Fold ATV Ramp for recreational, professional, and commercial use. The heavy-duty steel ramp weighs 46 pounds, supports up to 1,000 pounds, while its tri-fold design folds flat for transport and storage. Finished with a matte black powder coating, the Extra-Wide Tri-Fold ATV Ramp is distinguished by an elevated manufacturing design of full welds for strength at the attachment points.

**Black Widow® Extra-Wide Tri-Fold ATV Ramp**

[ST-TF-7449-V2](#) ..... \$229.99

The Black Widow Extra-Wide Tri-Fold ATV Ramp (74.25” L x 49” W x 1.75” H) is manufactured with thick square steel tubing for superior strength. The bent steel attachment point design provides more strength than spot-welded or full-welded straight-line attachment points. The additional bracing ensures consistent support of the ramp, ATV and rider during the loading process, even with frequent, repeated use. The attachment points are encased in a red rubber coating to grip loading surfaces and protect tailgates or trailers.

The textured, matte black powder coating protects the steel from rust and corrosion in all weather conditions and elements. This tri-fold ramp comes with two safety straps to prevent kick-outs during the loading process. The ramp folds down to 17” wide for compact storage in a garage, or can rest between ATV tires when the four-wheeler is loaded in a truck or trailer.

**About Black Widow®**

Black Widow, a division of MOTIS Brands™, manufactures a selection of loading, transporting and maintenance solutions for motorcycles, ATVs, UTVs, and PWCs along with snowmobiles through its Black Ice line. With an emphasis on combining product durability and affordability, standard and pro heavy-duty models are available to accommodate hobbyists, enthusiasts and working professionals.
