Harbor Mate® Introduces Lightweight USA-Made Pontoon Boat Dollies for Showroom and Storage

Proprietary rust-proof design elevates boat a full 12"

GERMANTOWN, WI – October 24, 2023 – Harbor Mate, a marine accessories brand for watersport enthusiasts and dealers looking to display personal watercraft and pontoon models, introduces Harbor Mate Pontoon Dollies for pontoon and tritoon boats. Lighter than steel and wood dollies at 17 lbs. each, they feature a 1,500 lb. capacity apiece and a concave surface constructed specifically for standard pontoon tubes. Durable, high-traction outer coating grips the tubes to reduce scratching or abrasion when positioning the pontoon boat on the dollies.

Harbor Mate High-Density Foam Pontoon Dollies

Part #: [RR-PBDOLLY-2](#); MSRP: \$379.99 (Pack of 2; 3,000 lb. capacity total)

Part #: [RR-PBDOLLY-4](#); MSRP: \$699.99 (Pack of 4; 6,000 lb. capacity total)

Part #: [RR-PBDOLLY-6](#); MSRP: \$1,024.99 (Pack of 6; 9,000 lb. capacity total)

Available in packs of two, four or six, the Harbor Mate Pontoon Dolly was developed to provide both lift and maneuverability to pontoons and tritoons in showrooms, in storage, or out of the water for service or maintenance. Each dolly is 100% solid core, lightweight, and finished with an outer layer of durable, non-abrasive coating. The top surface is concave to cradle the tube, and four steel casters per dolly ensure smooth movement on flat, even surfaces. When pontoon/tritoon tubes are placed on multiple dollies, each dolly supports up to 1,500 lbs. for a total capacity of 3,000 lbs. (2 pack), 6,000 lbs. (4 pack), or 9,000 lbs. (6 pack) for larger pontoons or tritoons.

Each dolly measures 16" W x 16" L x 14" H, and at 17 lbs. apiece they are easy to transport and maneuver between storage locations, or store on shelves during the boating season. The 12" lift height provides better visibility for dealerships looking to display the latest pontoon boat model on their showroom floor, or for those looking to access the underside of their pontoon boat for maintenance, cleaning or repairs.
